CERTIFICATE OF COMPLETION OF GATS-2 INDIA

This is to certify that **VIMARSH DEVELOPMENT SOLUTIONS, Haryana** has successfully completed the work of data collection under the second round of Global Adult Tobacco Survey (GATS), India: 2016-17', implemented by Tata Institute of Social Sciences, Mumbai. This survey was conducted in partnership with the Ministry of Health and Family Welfare, (Government of India) the World Health Organisation (South East Asia Regional Office) and the Centre for Disease Control and Prevention (CDC-Atlanta, USA).

VIMARSH was one of the research agencies from India which was entrusted with the work of field data collection for the survey in the states of Chandigarh, Haryana, Jammu and Kashmir and Punjab. The process of data collection involved multiple levels of activities such as training of field investigators and supervisors, undertaking mapping and house listing in the field and data management and transfer. VIMARSH has successfully performed all its responsibilities and work assigned under the project. Despite the various difficulties encountered in the Kashmir region of J&K because of conflict situation and heavy snow fall, VIMARSH was able to complete the work for the Survey.

Their adherence to protocols and coordination with us was very good. We are well-satisfied with their work.

Dr T. Sundararaman
Project Co-ordinator
GATS-2, TISS, Mumbai.
